

Professional Land Surveyor (017010)

About the Job

[SHN Engineers & Geologists](#) is seeking a California licensed **Professional Land Surveyor** with experience in a variety of survey projects to be part of our survey team in our **Eureka, California** office. The person filling this position provides assistance to SHN's staff of engineers, geologists, and related service professionals and develops stand-alone survey projects for our private and public sector clients. SHN offers a [competitive benefits plan](#), and the opportunity to contribute to interesting projects throughout Northern California and Southern Oregon. Visit [our Facebook page](#) for a glimpse into who we are!

The Professional Land Surveyor is responsible for developing and managing survey projects for our private and public sector clients, as well as our in-house team of professionals; you will work within the region and other SHN regional offices as needed to support company-wide project development. The Professional Land Surveyor will work with our Project Managers and the Regional Manager to develop scope, budget, and schedule for various projects within our multiple disciplines.

SHN provides rural engineering-related services throughout Northern California and Oregon. As a firm, through our efforts, we strive to enhance the communities we live and work in.

QUALIFICATIONS

- Professional, disciplined, self-motivated, organized, and focused
- Possesses strong written and oral communication skills
- Thrives in a team setting with other professional and technical staff, ability to lead
- Demonstrates attention to detail and a reliable work ethic
- Proven ability to market services to other professional services consulting firms and other clients
- Actively participates in local professional organizations and civic groups

DUTIES AND RESPONSIBILITIES

- Possessing thorough knowledge of field/office surveying methods, practices, techniques, legalities, and mathematical procedures of surveying
- Using AutoCAD and Trimble software to develop project design documents and communicate with internal staff and external partners and clients using these documents/software
- Planning and organizing the work of the field survey crews and office staff to achieve successful project delivery
- Communicating regularly with clients and SHN staff about projects, scope, schedule, cost, resource allocation, and prioritization
- Supervising, managing, and guiding other professional staff and less experienced staff; providing overall project management and quality control
- Actively promoting the company through business development activities, including the development and preparation of project proposals for a wide array of projects

EDUCATION/REGISTRATIONS/CERTIFICATIONS

- Graduation from an accredited vocational school, college or university with studies in Geomatics/Surveying, Engineering, or related fields; B.S. Degree in Geomatics or Surveying is desired
- California Professional Land Surveyor (PLS) registration is required; CFed certification a plus
- Minimum of five (5) years post license (PLS) experience
- Fluency in AutoCAD Civil 3D and Trimble software
- Valid California Driver's license within 30 days of hire date

PHYSICAL REQUIREMENTS

- Bend, reach (overhead), or stoop for prolonged periods
- Drive a motor vehicle to perform work-related duties
- Exert force, lift, push, pull, or carry up to 30 pounds of weight
- Hear, understand, and respond to verbal information in person, by phone, or by electronic mail with the public and co-workers

- Manipulate objects with fingers rather than with whole hand(s) or arm(s), for example, using a computer keyboard and mouse (make fast, simple, dexterous, repeated movements of the fingers, hands, and wrists)
- Reach by extending hand(s) or arm(s) in any direction
- See, read, and understand written information in all forms, both electronic and hard copy
- Sit in a normal seated position for extended periods
- Walk or stand for prolonged periods
- Work outside in all weather conditions and in all terrains

SALARY

Commensurate with experience.

HOW TO APPLY

If you are looking to expand your surveying career, and want to be involved in the management and professional development of staff and projects in a successful consulting business, please submit a cover letter that addresses the duties and responsibilities, along with your resume, to Laurie Carroll, Recruiting, at lc Carroll@shn-engr.com. Please refer to the job title in your letter. If you know someone that might be interested in this position, please forward this information to them.

This position is open until filled.

SHN is an equal opportunity employer. A reasonable accommodation can be requested for any modification or adjustment to the job or the work environment that will enable a qualified applicant or employee with a disability to perform the essential job functions.
