

# Geologist/Hydrogeologist (Environmental) (017006)

## About the Job

---

[SHN Engineers & Geologists](#) is seeking a California licensed Geologist/Hydrogeologist for our Eureka, California office. The individual filling this position will work in SHN's environmental services group on projects related to environmental investigations, remediation, surface and groundwater related issues, and regulatory compliance. SHN offers a [competitive benefits plan](#), and the opportunity to contribute to interesting [environmental projects](#) throughout Northern California and Southern Oregon. Visit our [Facebook](#) page for a glimpse into who we are!

### QUALIFICATIONS

- Professional, disciplined, self-motivated, organized, and focused
- Possesses strong written and oral communication skills
- Thrives in a team setting with other professional and technical staff, ability to lead
- Demonstrates attention to detail and a reliable work ethic
- Proven ability to market services to other professional services consulting firms and other clients
- Actively participates in local professional organizations and civic groups

### DUTIES AND RESPONSIBILITIES

- Perform site investigation and data evaluation activities.
- Oversee and perform field efforts for site investigations and remediation, such as supervise drilling activities, log soil cores, and collect soil and groundwater samples.
- Develop and implement remedial feasibility testing.
- Prepare geologic cross sections and develop site conceptual models.
- Develop Phase I and II site assessments and reports.
- Create groundwater models and water well installation design.
- Write site investigation work plans and reports of findings.
- Provide overall project management and quality control.
- Communicate regularly with clients, and SHN management and staff about projects, scope, schedule, cost, resource allocation and prioritization.
- Work with and provide guidance for less experienced staff.
- Assist with business development and proposal preparation.

### EDUCATION/REGISTRATIONS/CERTIFICATIONS

- B.S. degree in Geology or similar field from accredited university or college (M.S. preferred)
- California Professional Geologist License (preferred)
- Certified Hydrogeologist (CHG) (preferred)
- 40-hr OSHA HAZWOPER Certification
- A working knowledge of the regional geologic conditions and regulatory requirements in this geographic area (preferred)
- Full-cycle remediation experience (preferred)
- U.S. citizenship or authorization to work in the U.S. without sponsorship
- Valid California Driver's license by hire date
- Ability to travel up to 10% of normal work hours

### SALARY

Commensurate with experience.

### HOW TO APPLY

Please submit a cover letter that addresses your qualifications and experience, and your resume to Laurie Carroll, Recruiting, at [lcarrroll@shn-engr.com](mailto:lcarrroll@shn-engr.com). All inquiries will remain confidential. If you know someone that might be interested in SHN, please forward this information to them. This position is open until filled. SHN is an equal opportunity employer.
