

Professional Land Surveyor Opportunity at Small Firm in Northern California

Financial opportunities include a base salary commensurate with experience, generally twice that needed for a family of four in Humboldt County. Benefits could add up to 30% of salary, and we offer an employee stock ownership program.

Where is the work? Work will primarily originate in the Eureka office, but frequent interaction and personal travel to the other SHN offices will be required at times. Living and working in rural towns and cities is not for everyone, but benefits include highly ranked elementary and secondary schools, a nearby state university and community college, and acclaimed recreational opportunities. Humboldt County supports a thriving art community; local artists study at the world-renowned Dell'Arte International School of Physical Theater and created the Kinetic Sculpture Race.

Who are we looking for? PLS preferred, but LSIT candidate considered.

Engineers & Geologists
