

Environmental Engineer-in-Training (EIT) (018005)

SHN is opening an entry-level, full-time **Environmental Engineer-in-Training opportunity** for a talented and hard-working individual, who will be based in our Eureka, California office, in beautiful Humboldt County. The individual filling this position will gain experience assisting municipal and private development clients. The types of projects you could be working on include water and wastewater design, water resources, stormwater compliance, low impact development, hazardous materials, landfills and waste management, site investigation, fate and transport, site remediation, site civil, air quality, noise, agency permitting, and CEQA/NEPA.

The ideal candidate will have opportunities to demonstrate his/her “soft skills,” such as writing reports, communicating with team members, and presenting to audiences who are co-workers, stakeholders, and clients. Your ability to plan methodically and think strategically will be further developed by working with local, state and federal agencies, and understanding their permitting requirements. Any knowledge and experience you may have in researching and applying for grant opportunities is desirable.

Work will be primarily based in the Eureka office, but this job opportunity will likely include interaction and travel to SHN’s regional offices (Arcata, Redding, and Willits, CA and Coos Bay and Klamath Falls, OR). Experience in the regional offices will increase your knowledge of other physical environments and local regulations and guidelines.

Your Education, Certifications and Qualities (Required):

- Bachelor’s degree from accredited university or college in environmental or civil engineering, or related field
- Strong written and verbal communication skills
- Demonstrated ability to work in a team setting with other professional and technical staff
- Attention to detail and reliable work ethic
- Characteristics including professionalism, self-motivation, and ability to focus
- U.S. citizenship or authorization to work in the U.S. without sponsorship
- Valid California Driver’s license by hire date
- Proficiency with Microsoft Office Suite and Adobe Acrobat

Your Experience and Certifications (Preferred):

- 2 to 5 years relevant work experience
- Fundamentals of Engineering (EIT) certificate
- Skill with engineering software such as AutoCAD, Civil 3D, TR55, WWHM, StormCAD (individual not expected to be skilled in all)

Compensation: SHN’s pay is commensurate with experience and considers the currently competitive market for engineers. Benefits can add up to 30% of compensation.

How to Apply:

Please submit a cover letter and resume that describes your experience to:
Mark Chaney at mchaney@shn-engr.com

All inquiries will remain confidential. This position is open until filled. SHN is an equal opportunity employer. A reasonable accommodation can be requested for any modification or adjustment to the job or the work environment that will enable a qualified applicant or employee with a disability to perform the essential job functions.
