
Field Biologist, Seasonal

Location: Mendocino, CA

Time Frame: April – August 2023, possibly longer

Pay Range: Approximately \$22.00 – \$30.00 per hour

What kind of work would I be doing?

As a field biologist, you would conduct Northern Spotted Owl (NSO) protocol surveys on Mendocino National Forest lands two to five days per week, every two weeks. Experience in field biological surveys including bird identification by sight and sound and navigation skills using maps and GPS is required. NSO protocol survey experience is preferred. Possible camping on site required. You will be part of a team of two, splitting up to conduct nighttime surveys. Must have the ability to work independently. Specific task training provided.

What are SHN's minimum qualifications?

- Experience in field biological surveys including bird identification by sight and sound
- Navigation skills using maps and GPS
- Ability to work and camp in rough terrain and inclement weather
- Authorization to work in the U.S. without sponsorship
- Valid driver's license and satisfactory driving clearance
