
Environmental Tech / Staff Geologist

Location: Northern California, Redding office

Compensation & Benefits:

- Annualized wage range is approximately \$62,400 to \$65,700
- Flexible work schedule
- [Comprehensive benefit package](#)
- Family-friendly and supportive team culture, shareholder opportunities
- Live, work, and play in the beauty of Northern California

What are SHN's minimum qualifications?

- Bachelor's Degree in Geology from an accredited university or college
- A willingness to learn
- Authorization to work in the U.S. without sponsorship
- Valid California driver's license and satisfactory driving clearance

What additional knowledge and experience would make me a great candidate?

- Completion of 40-hour OSHA Hazmat training (otherwise offered in first month of employment)
- Experience with consulting-model employment

What kind of work would I be doing?

The Environmental Tech / Staff Geologist will be responsible for the completion of a variety of basic environmental, geologic field and office tasks. Geology-related field tasks may include mapping, testing, and sampling with both drilling and excavation equipment. Environmental Tech-related field tasks will include the collection of stormwater samples, groundwater samples, soil samples, soil-gas samples, and field environmental reviews to verify contractor compliance with various regulatory requirements. The role requires application of geological knowledge to the assessment of geologic hazards, most commonly associated with engineered environments. The Environmental Tech / Staff Geologist will assist in the completion of well reports, collection and assessment of analytical lab data, geologic hazard assessments, the interpretation of geologic and geotechnical data and the preparation of geologic reports and maps. It is expected that this person will continually understand and act consistently with the values and culture of SHN.
